contemplated shake-up in the Pension Bureau or that the talk of his resignation had any warrant, Commissione of Pensions Vespasion Warner said to day it would be his policy steadily to reduce the force employed in the bu-He explained that large reductions had been made in the force since he took office and that these would continue as rapidly as the work per-

about 1,500 employes of the Pension Bu reau," said Mr. Warner. "When I went before the Appropriations Committee in connection with appropriations for the fiscal year beginning with July, 1906, I gaid I could get along with 150 less em-

mot by discharging miscellaneously but ion that he was by not filling vacancies as they oc- than ever before." gurred. In a similar way, the force for Mr. Root, who was somewhat weakenthe current fiscal year has been cut ed last spring and summer, was put flown seventy. For the fiscal year bethrough a stiff course by Muldoon, and ginning next July. I expect to get along came out of it in fine trim. with a reduction of about 140.

Discharged No One.

"When I discussed the subject before The Appropriations Committee I told them that I did not intend to discharge a that I did not intend to discharge a single old soldier or anything of that port. But vacancies keep occurring and by not filling these I am enabled to make large reductions in the working force. Members of the Appropriations Committees, both Republican and Democrat, have told me I was right about it."

Mr. Warner said so far as a reform in business methods and the like for his bureau was concerned, he knew of nothing projected. He was aware of the investigations of the Keep Commission and of the inquiry with reference to equalization of salaries and classification of clerks that was being made by a committee headed by John W. Holcombe, of the Department of the Interior. But he was not aware of any overhauling of the bureau in consequence.

No Thought of Resigning.

As to concentration of the pensio agencies in Washington or the abol-ishment of a part of the present agencies, Mr. Warner does not look

Touching on his rumored resignation Mr. Warner said: "I suppose the re-ports may have originated because of ports may have originated because of criticisms of me in connection with my work as executor of the estate I am settling. I have been appointed executor to do certain things in accordance with the will of the man who named me executor. I intend to carry out his wishes, no matter by whom criticised or attacked. I would be false to my trust otherwise." ever since he retired from the active management of the company.

GIVEN PUBLICITY AND CRITICISED 'The Navy' Prints Point-

ed Editorials on Recent Sea Practice.

Ships Are Inadequately Equipped, it Says, and Officers Too Old.

naneuvers held off the Virginia capes, but still the officers and ships of the feat. Atlantic fleet would prove far from efficient in a realistic game of war, according to the view taken by "The

This magazine, which created a genu-ne sensation in the navy by starting out to reform it by exposing its pronounced weaknesses, declaring that there was no fleet was unprepared to make the Pacific cruise, and that the Kentucky, Kearsarge, Maine and other ships were "softvessels, and accordingly defective in construction, has more caustic criti-cism in the September issue.

The author of the leading editorial, who is believed by naval officers to be a former officer, because of his knowledge displayed and accurate technical language used, claims to give an authentic detailed account of the recent maneuvers, which the Washington officials ade every effort to keep secret. The maneuvers are described as fol-

Method of Maneuvers.

"The first division of four ships, spent hree days, the 21st to the 23d of August, in the simplest sort of maneuvers, such as 'ship right,' 'column left,' etc. in the week of August 26-31 the fleet spent five days at sea, with eight ships in the Wednesday, Thursday, and Friday are given up to battle tactics. The

two squadrons separated and when out of sight of each other, approached each other in various formations. Fire opened at 8,000 yards, and continued to opened at 8,000 yards, and continued to less than 4,000—the range established for torpedoes. Observations were taken every five minutes, and the positions of the squadrons plotted to scale.

"The very things appeared that were expected. The range-finder crews were inadequately drilled. The range-finders are in tops which vibrated so that it

Conning Towers Not Used.

"There is no efficient means of com municating with the commanding offi He is looking like a brand new man cer. The conning towers were not use today. In the last few days he had on any of the ships, since they are gone through a rigorous schedule with poorly designed and inadequately the ease that comes only after hard equipped. No captains have ever contraining. towers, and so are not prepared. These various defects are all emphasized by this battle practice, and officers are set to thinking of what the fleet really should have for battle conditions.
"Our superstructures, from mast to

mast, are a jumble of great, tall smoke-stacks and ventilators, cranes, useless bridges, and masts which serve for nothing but signal hoists. This shows up most strikingly when the guns are trained on the opposing squadron. "Another circumstance which deserves

"Another circumstance which deserves serious attention is the fact that the turret sights of the Louisiana were so seriously injured by vibraticns of the turret machinery, during the maneuvers, that she did not sail with the fleet Tor the target practice in northern waters. Fourteen days will be required to make the necessary repairs at the Norfolk yard. The Vermont remained behind for final speed trials at sea. This ship displayed at Hampton Roads two empty portholes on her broadside. Is this the kind of fleet it is wise to send into the Tacific?

kind of fleet it is wise to send into the Fracific?

"No one who took part in the exercise could have failed to ask himself, Why train, in these battics, admirals who have but a short time to serve?" If the fleet starts for the Pacific on December 15, with the present officers, the four rear admirals will then have an average of but thirteen months before retirement, while the commander-inchief will have but eight months; the captains will have an average of but three years ten months."

THE WEATHER REPORT. BIG CLAIM IS PRESENTED The development of a modern dis-turbance over the Middle West, and unother in the Northwest has resulted a showers in the upper lake region, he upper Mississippi, and Missouri val-eys, and the Northwest. There was no ther rain of consequence, except in florida. It is considerably warmer in he upper Mississippi and lower Missouri alleys, and cooler in the northern lateau; elsewhere temperature changes were small. AGAINST ECKELS ESTATE

CHICAGO, Sept. 7.—The first claim filed against the estate of James H. Eckels was made public yesterday after-noon in the office of Guy Guernsey, clerk of the probate court.

It was for \$56,894, and was in favor of William Saiomon & Co., a firm of New York brokers.

WARSHIPS' DRILL Millionaire Will Drive Tandem of Wild Zebras Through Gay Broadway

Trainers Have Turbulent Time Making Brutes Docile.

NEW YORK Sept. 7.—Russell Hop-kins, millionaire son of an Atlanta (Ga.) banker, is to treat Broadway to sight it never has seen before. He intends to drive a team of zebras up the Great White Way to Martin's, and thence to Delmonico's.

Learning that it was extremely dif-ficult to train the zebra so that the animal Battle tactics in the American navy would work well in harness, the South-nave arrived at last, with the recent erner's sporting blood asserted itself, and he determined to accomplish the

Hopkins has an estate at Irvington-on the-Hudson. He keeps a menagerie there-bears, llons, tigers, ostriches and birds. But he yearned for zebras. He got one, Navy," the official organ of the Navy Eut he yearned for zebras. He got one, League, of which Gen. Horace Porter is and called it "Sing Sing." Now he's nepresident, and in which many navy of-ficers hold offices.

gotiating for the purchase of another, which he will call "Arsenic."

The millionaire hustled to Frank Gunther, who has charge of the animals,

"Frank, you and I, being practical men, are going to tame the festive zebra-

men, are going to turb his haughty spirit and lay his hauteur in the dust."
"Sure," said Frank, groping about for his employer's intent. "What's up?"
"I'm going to drive a brace of zebras up Broadway, and I'm going to halt them in front of Martin's. Also, Frank, are close to dire there and in additional contents and in additional contents. I am going to dine there, and in addi-tion, Frank, little Russell is going to irive the spanking pair up to Del's." He bought "Sing Sing," and introduce, the zebra to George Cook, the coach man, who is reputed to be able to tame the ferocious and furious lion.

Cook nonchalantly mounted the stee hat looks like a convict dressed up for a prison inspection. The said steed balked,

SUGGESTS HAGUE

kicked, smorted-and Mr. Cook found | himself prone on the ground, with con-tusions and aches in his limbs, It was said that George could tame a ranting shrew, but the zebia was one too many for him. After he had exhausted half-nelsons, strangle-holds, and leg-holds, he wound up in a hospital.
After much trouble, turmoil, and

travail they got the bit into Eing Sing's mouth—and clamped it there. For a while they left the metal bar in the animal's jaw, so he'd get used to the strange contrivance. According to all who have been monkeying with Mr. Zebra, in about two weeks he'll be gentle and tractable and be perfectly willing to whiz up Broadway in front of a carriage.

carriage.

It is said that Hopkins will have to spend \$20,000 in consequence of his "zebra fad," but he will feel_repaid when he drives a tandem up Broadway and startles the denizens of the Incandescent.

Richard L. Jones, sixty-two years of age, died this morning at George Washngton University Hospital, where he was carried last night after a sudden ttack of heart trouble.

Mr. Jones leaves no family. He will be buried by the Pressmen's Union, but as yet no funeral arrangements have been made. He was one of the oldest ressmen in this city in point of service, and was at his post of duty in the Government Printing Office press rooms vesterday afternoon. News of his sudden death was received with much sorrow among his associates.
